ASHA Survey – Learning Outcomes Knowledge

Portrait of a Brain: A Window into the Architecture of Our Mind

Nancy Kanwisher, PhD | February 16, 2021

1. Participants will explain how brain imaging can be used to identify regions made up of both highly specialized components and general-purpose components.

   The speaker covered this learning outcome with satisfactory results
   Strongly Agree———1  2  3  4  5———Strongly Disagree

2. Participants will describe how selective, specific and specialized brain components help our understanding of our behaviors and experiences.

   The speaker covered this learning outcome with satisfactory results
   Strongly Agree———1  2  3  4  5———Strongly Disagree

3. Participants will explain how clinical training can be targeted to build function across all brain components to enhance overall cognitive health.

   The speaker covered this learning outcome with satisfactory results
   Strongly Agree———1  2  3  4  5———Strongly Disagree
